In these patriotic times it is a most fitting date that has been chosen for the official opening of Wainwright's new summer resort, "Mott Lake". The day is July 2nd which will be declared a public half holiday in place of July 1st Dominion Day which this year falls on a Sunday.

The lake was named by the Dominion Government in memory of Pte E. F. Mott of Wainwright, a member of that now famous Edmonton regiment, the 49th Batt, who fell on the field of battle fighting for the Empire.

Mott Lake is within two miles of Wainwright on a splendid graded road, has an excellent beach for bathing, fine high and dry camping grounds, in fact every advantage that should appeal to those of us in and out of town who enjoy our holidays in the open near the water. It is expected from the present inquiry for camping leases for grounds, that Mott Lake will be well patronized this season especially as the nearness of the resort will so greatly appeal to those of us who will take advantage of the Thursday half holiday to begin on July 5th.

No hindrance of any kind will be permitted to stand in the way of the success of the big opening on July 2nd and for which arrangements are now being made. Everything possible that will tend to make the opening a success is in the course of preparation. All are invited to attend and request of to bring baskets and spend the day of enjoyment at Wainwright's beauty spot. Wainwright's big band will be in attendance all day auto parade, speeches, bathing, and other attractions will occupy your time for the day.

Name Great Peak "Mount Chamberlin"

The Geographic Board of Canada announces that it has decided to name a splendid peak in the Canadian Rockies "Mount Chamberlin" in honor of President E. J. Chamberlin of the Grand Trunk System. The great mountain territory in the neighborhood of the Yellowhead Pass was first thrown open to travellers by the building of the Grand Trunk Pacific's transcontinental line, which was completed under President Chamberlin's direction. This peak is at the southern end of a massive mountain range in the Grand Forks amphitheatre and is surpassed only by its neighbor Mount Robson.

Fire Brigade Called Out

A chicken house owned by Mrs. Hotchkiss on 8th avenue was badly destroyed by fire on Saturday last about 1 o'clock. The alarm was turned in by O. J. Elder and was immediately responded to by Wainwright's fire department, and in a few minutes the whole apparatus was on the scene. It was found that all of the building was in flames, and those in charge of the chemicals set to work to extinguish the blaze. Water was conserved and the proper methods taken to put out the fire without the services of the fire department. The regular meeting of the U. F. W. A. was held in Rosedale Hall Thursday afternoon June 14th.

Capt. Hudson In Line For Honors

Captain Hudson member for Wainwright has been with the 49th until quite recently for he has been promoted to brigade transport officer. He has made a striking success as his battalion transport officer. That he was successful is doubly vouched for by the fact that he was promoted to a captaincy and was ordered to handle all the difficult and dangerous operations pertaining to the brigades transport in the big offensive over since Vimy. Through one of those indirect channels which seems so strangely humorous and so foretellingly well informed in an army I have heard that other honors may soon be bestowed upon Capt. Hudson. I have heard that he stands a very good chance of being decorated for his fine handling of a big work which is always very dangerous very responsible. The people in the Wainwright country will be glad to hear how splendidly their young member has served them in France for I know what I'm saying when I write that George Hudson has done brave work, and always did it well.

Friday afternoon July 27th Mrs. Chas Moore will hold a Red Cross tea at her home. Tea will be served to the ladies at 10 cents a cup. Come all and have a good cup of tea!

All members and others interested in Red Cross work are cordially invited to attend the meetings.

The regular meeting of the U. F. W. A. was held in Rosedale Hall Thursday afternoon June 14th.

A enjoyable and profitable time was spent, two quilts were made and a splendid supper was served by Mrs. Tompleton and Mrs. Edward Gibson. There were fourteen members present and sixteen visitors. Such a pleasant and profitable time was spent that they decided to meet their again for the August meeting and make two more quilts. Mrs. E. Knott and Mrs. Macfee will serve the supper to the ladies.

The next meeting in July will be held at the home of Mrs. W. J. Reynolds. A business meeting will be held and papers prepared by Mrs. A. Redmond, Mrs. N. Redmond and Mrs. Chas Moore on the subject: Furnishing and Decorating the home.

Wainwrights Fall

Fair Aug 2-3

The prize lists for the current year's fair are now in the hands of the STAR printers and will be issued in the course of two weeks. Directors are already doing everything possible to ensure a big success. There will be the usual exhibition of stock poultry, grains, roots, vegetables, etc, for which our district is worthily noted. In ladies work home manufacturers and such like the prizes are liberal, and the entries will likely prove large.

The fair this year will be held on August 2nd and 3rd and all entries must be in the hands of the Secretary S. D. Mills by 6 p. m. on the evening of August 1st.

AIMS AND OBJECTS OF THE GREAT WAR VETERANS

Of the many great organizations that have sprung out of this terrible conflict of Nations and which in their turn will be called upon to deal with the various after-war problems the "Great War Veterans Associations of Canada" is of no secondary importance.

Arising out of the parent body known as the "Veterans Association" it has spread its wings widely over this Dominion, and a strong and healthy branch has been formed in the Province of Alberta.

This war is teaching us as an Empire many true and valuable lessons, but among three will stand out prominently, all of which, this Great War Veterans Association will clearly emphasize.

I will but refer to them briefly not expanding in any sense as space will not allow. First of all there is the brotherhood of Unity, which will be more than a passing sentiment in this new organization. This war has taught us what we never fully realized before, how thoroughly one we really are. It has brought up the Empire into one great united body. Canadians, Englishmen, Scotchmen, Irishmen, South Africans, Australians, East Indians, are now all one in showing to the world and more especially to our enemies that they are proud to be the subjects of His Majesty the King, and to stand by "the old Flag, which to them means everything that is sacred in Life."

Upon this at present moment. Suffice it to say that the Central Powers with whom we are engaged in a deadly conflict have now learned that the divers ties of thought and opinion that seems to have placed us in bitter hostile camps only really served to make us more united in defence of Institutions under one crown of a free and self-governing nation differing in so many respects.

This is one great lesson of the war, which the Great War Veterans Associations will keep alive viz. The Brotherhood of Unity. Another lesson to which I can but refer in passing, is that, which I may call Joint-Partnership by which the younger nations of the empire will share with the Imperial Government the responsibility for all those things that hereafter will make for Peace or War. The younger States, will no longer be looked upon as protected colonies, but rather participating nations. The last lesson I will mention, and which, all after the war organizations will take within their scope will be the rights of weaker nations, to have their status duly honoured and respected. It must settle the question so painfully brought to light in this war viz: has one nation merely because it is powerful a right to impose its conception of civilization upon all others or upon any other or others. Is strength to be the sole title to existence and respect.

Such Sir-though not expanded in any way, or done full justice to by any means are three great lessons from this war, and think which directly will find their place within the borders of this excellent body to be known as the "Great War Veterans Association of Canada."

It is worthy of all support and sympathy, as it stands at the preservation of mutual service in this great war, to keep ever

THE PRESS AND THE PUBLIC

THERE HAS been one or two questions in Wainwright in the past few months that have brought a call upon the STAR from some citizens at different times for publicity and denunciation. The STAR wishes to point out to its readers, that our aim is at all times directed towards the best interests of the town and its citizens in general. A newspaper should not draw the attention of the outside to the shortcomings, to use a charitable word, of any of us. We have a splendid class of citizens. We are all thriving and will continue to do so, but we must look ahead to the general good of the whole, to accomplish this. We have laws, and they must be observed. It is the duty of our officials to enforce these laws. It is when the arm of law or any of our public servants do not carry out the duties for which they are chosen by the people, that it becomes the privilege and the right of the press to speak, and the STAR is not only willingly but anxious to come out fearlessly for the people on such occasions.

A UNITED CANADA BEHIND THE EMPIRE

OUR MOMENTOUS event follows so closely upon the heels of another in these tremendous times that it is difficult to assign to each its proper proportion of importance.

The crisis in Europe is piercing to the hearts and consciences of the Canadian people. It is breaking down the artificial middle walls of partition which ordinarily divide the English-speaking citizens of the Dominion. For the time being normal political considerations are being dispensed with. Liberals and Conservatives are finding it imperative to sink ancient distinctions for the period and purposes of the war.

It has come home to an increasing number of Canadians as the Toronto News points out, that drastic measures must be taken in order that the war-worn Canadians at the front may be adequately reinforced and that Western Allies may overcome the embattled enemies of civilization. It is coming to be generally recognized that the war could have been won this year if the Russians had been able to carry out their part of the pre-arranged spring and summer campaign against the Central Powers, the paralysis of the Russian armies has released the full defensive forces of Germany and Austria for the use on the West front and against Italy. The emergency is so serious that the British Empire and the United States must mobilize their man power, their moral power to ensure the final triumph of the free democracies over the brutal of military despotisms.

Miss Stinson has just completed a most successful "Flying Visit" to Japan and China, where she was tremendously popular; her during exhibitions were most enthusiastically witnessed and she was made the recipient of many beautiful and costly gifts. This charming young lady conducts a School of Aviation in the United States and has at the present time, many graduates in the aerial service of the Allies in France and Flanders. Miss Stinson made splendid flights in Edmonton last year and has again been engaged to appear at the Edmonton Exhibition in 1917.

NEW ALBERTA MAP

A new edition of the northern Alberta homestead map has been issued by the department of interior. It shows the land divided into two main classes. The first of these represents that which has been already patented. In addition to these divisions the various colors on the map indicate forest reserves, Dominion parks, timber berths, grazing leases, Dominion land offices and coal areas. The areas uncolored and shown as surveyed are available for settlement. Another important feature is the precise location of the railroads while other topographical features such as the position of lakes and rivers are also indicated. Application to the superintendent of the natural resources intelligence branch of the department of interior Ottawa, will secure a copy free of charge.

LUMBER MILLS BURNED

\$100,000 Damage Is Done at Selkirk Water, B.C.

VICTORIA, B.C., June 9.—Damage estimated at about \$100,000 was done by a fire which broke out early yesterday at the Cameron Lumber company's mills, Selkirk water.

The planing mill, box factory and cross-arm factory, together with the greater part of the machine shop are included in the damage done by the outbreak, which is traced to a hot journal box in one of the machines.

Only the absence of wind and the protection of lumber in the yards by stocks of lumber right against the burned premises gave the firemen a chance to save the mill yard, in which was a very valuable stock of lumber. A small insurance was carried.

\$200,000 FOR Y.M.C.A. MONTREAL, June 1.—The campaign for the Y.M.C.A. overseas fund closed today and it was announced that over \$200,000 had been subscribed. The largest subscription was \$25,000 from the Birks family. The amount secured is \$50,000 in excess of the contribution asked for.

WHY DREAD OLD AGE?

It should be the pleasantest time of life and it coupled with good health it is. Many of our most remarkable men and women have won fame and prominence after reaching the sixties, and in lots of cases they have not been robust in youth.

The secret of health in old age is the prevention of bowel disorder. Constipation is the foe to be dreaded. Care in diet is necessary, also the avoidance of harsh cathartics, which only aggravate the trouble.

The ideal laxative for aged people is Chamberlain's Tablets

On account of their mild and gentle action, you hardly realize that a medicine has been taken. Yet the effect is none the less certain, and the tonic properties of these Tablets so build up and strengthen the digestive system that the health is greatly benefited. Try a bottle today.

CENTRAL POWERS HOLDING 3,000,000 PRISONERS OF WAR

Bulk of Them Are Russians, While British Number 77,370

AMSTERDAM, May 18.—The Central powers now hold nearly 3,000,000 prisoners of war, according to official figures obtained by German newspapers. The British have 77,370 prisoners, including 15,471 officers, Austrians-Hungarians 1,700,000, French 1,200,000, and Turkey 2,200,000. A total of 2,200,000 prisoners of whom 1,000,000 are officers.

This total is composed of the following: Russians held by the Central powers and those in Germany, respectively:

	Total	In Germany
Russian	2,000,000	1,200,000
French	1,200,000	700,000
Austrian	1,700,000	1,000,000
British	77,370	15,471
Belgian	2,000	1,000
Montenegrin	2,000	1,000

The British prisoners of war not in Germany are divided between Bulgaria and Turkey.

RESERVE POWER

THE McLaughlin valve-in-head motor actually develops from 18% to 30% more power with the same fuel consumption than any other type of motor of the same bore and stroke. This fact has been established by engineers, by block tests and tests in actual service. This means fuel economy and power.

Because this power is sometimes vital, it is found in abundance in McLaughlin Motor Cars, ready for instant application. It is "RESERVE POWER" and marks the dependable and efficient car.

SPRING ADDRESS DELIVERED BY MRS. A. M. POSTANS

Madam President and Ladies—I was indeed glad to be able to come and visit your U. F. W. club. Once before I came to Wainwright with the intention of visiting you, but found to my sorrow that I had made a mistake in the day.

It makes me wonder if advertising your meetings would not be a good method. First set the day of your meeting permanently, then put a notice in the paper saying where you intended meeting and what special topic of interest you would be taking up. I feel that you need to bring the U. F. W. club more before the public eye. Let the people know you have a U. F. W. section and such one of you try and impress on all farm women that it is their duty as well as their privilege to help the United Farmers all they can. It does not seem to be generally realized that the legislative influence of the U. F. A. depends largely on the voting power of its members at election time and that when the U. F. A. advocates and did its share in securing equal suffrage they practically doubled the number of voters in Alberta, and in doing so, reduced their own percentage of the decisive vote in Alberta by about one-half. If the women of the province are to exercise any political influence as the U. F. A. have done in the past, they will need to organize as they have done. The U. F. A. ask our co-operation and assistance. We are asked to study the farmers' platform, which can be found in the annual report, so when election time does come we will know whether our farmers' platform is part of the candidate's platform for whom we intend to vote.

There are so very many problems and serious questions coming before the minds of the women of today that unless we are organized, how are we going to meet them fairly and squarely. I know it is easiest just to ignore them, but can we do so conscientiously? Isn't it our duty to study these questions of the day? Not only for ourselves but for the sake of the generations to come. I feel as if we had a very great responsibility placed on our shoulders.

Farming is becoming more and more exacting every year and organization among farmers and their wives will not be so difficult when individuals realize its necessity.

First of all it furnishes sociability and to get together for a good time is reason enough for organizing on a definite plan. The associations have improved rural life to such an extent that no rural community should be without them—aside from the material advantage gained.

Every family should consider itself a co-operative school as well as an organization for the study of co-operative problems with special reference to social conditions as well as their business activities.

A splendid plan to keep members interested is to have a program for the year printed. Take some subject, either one of the subjects outlined by the Extension department and for which they send books for getting up the different papers, or some subject such as nursing, invalid cooking, first aid, or after demonstration, etc., and different members each take a subject and read up fully on it, then prepare a paper.

You see as we are all busy women, in this way we have only one subject to read up on and we all profit in this way, then have a general discussion. I have a program of the A. L. K. branch which you are welcome to look at and study.

I have been thinking a great deal of your club since hearing from your secretary, about being unable to keep members interested or to get new members.

I have several suggestions: You can decide for yourselves which you consider the most desirable or perhaps some member can make a better suggestion.

I would urge you to take up some definite work, and then carry it through—something of benefit to the community, such as the building of a U. F. A. or U. F. W. hall, improving school grounds, arranging for a district school's field day, have a U. F. W. flower show with stall of needlework to be sold for Red Cross, or cake, ice cream and tea.

A good way is to have tea and cakes at all meetings, provided by different members each time, charging ten cents and give proceeds to the Red Cross.

It is advisable to study reports of U. F. W. in Guide, so as to see what other clubs are doing.

A good idea for getting new members would be to divide members into two teams with a captain for each, and have a competition as to which side can bring in most members during the year, and give a prize to the winning team. As I said before, every club should study the "Farmers' platform" and the different terms in it such as the patronage system. Names of books can be obtained from Mrs. Barrett for this purpose.

It would be a good idea for clubs to subscribe to the farm papers: Guide, Farm and Ranch Review, and Farmers' Advocate. By studying these papers many good ideas can often be obtained. A very good idea is to have a paper each month on current events in the world, by different members. It makes the meeting interesting and instructive, and keeps all abreast of the times.

Now I have made these suggestions, and if any of them seem good to your club, I would be glad if you would try them and let me know the results. I think if the secretary would write an interesting report of each meeting and put it in the Wainwright Star, it would help. We want to get the U. F. W. before the public eye and each one of you talk U. F. W. to all farm women.

In no way can women help the menfolk so much as by standing solidly by them, and our first step is to get thoroughly organized.

I was reading a short time ago a copy of "A Club Woman's Creed," sent to the Guide by Mrs. Barrett. If we each strive to make it our rule of life then we shall about the mouths of those who would make us believe that women's clubs can never be a success, because women are too busy—that the personal element enters too largely into their business and social lives. Moreover our home life, which after all, is the true test of what we are, and not what we seem, will be beautiful and enriched thereby.

A Club Woman's Creed: Keep us O God from putting; let us be large in thought, in word in deed. Let us put away pettiness and leave off self-seeking. May we put away pretense and meet each other face to face, without self and always generous.

More Mileage

20 to 25 miles to a gallon of gasoline is a frequent occurrence with the Ford Car. One man, name on request, reports an average of 33 miles per gallon for 20,000 miles. Surely this is a record that few, if any other makes of cars ever equaled.

It demonstrates the economy of owning and driving a Ford. You can average 1000 miles more travel on Ford-size tires. The saving on oil and repairs is proportionately large. The name "FORD" stands for lowest cost and greatest service;
